Report of the Committee on the 4-H Uniform for Girls

National 4-H Club Camp

June 17, 1946

We recommend the following as the official 4-H Club uniform for girls:

1. Pattern - Suit and blouse (as worn at National 4-H Club Camp 1946) Patterns were presented by Advance, Hollywood, and Simplicity Companies.
2. Fabric - Jacket and skirt to be made of green and white striped woven seersucker. (The seersucker is especially recommended as it will make unnecessary the burdensome pressing of uniforms during 4-H events such as national, State, and county camps.)
 - Blouse and dickey to be made of white broadcloth. Dickey pattern similar to the collar lines of the blouse.
3. Buttons - For the jacket, use 3/4-inch white pearl shank buttons.
 - For the blouse, use 1/2-inch white pearl "sew-through" buttons.
4. Shoes - White with medium or low heels.
5. Hosiery - medium shade (no socks).
6. Hat - Solid crocheted white beanie (no bows).
7. Handbag - White.
8. 4-H Club Emblem - Washable chevron (a little smaller, but same style as #641 as shown in the National Committee Catalog.)

Wearing the chevron - Six inches from the shoulder seam on the left side of the jacket front.

- If and when the blouse is worn without the jacket, the chevron is to be placed on the left pocket of the blouse.

We further recommend that States use the green and white striped seersucker skirt and white broadcloth blouse for demonstrators, and

We recommend green and white striped seersucker skirts and "T" shirts for county campers.

We suggest that a committee or someone should be appointed to investigate the the availability of the green and white striped seersucker which is understood to be at the Philadelphia Quartermaster Air Depot.

We suggest also that letters be sent to the pattern companies announcing the official uniform and to the National Committee on Boys and Girls Club Work. The latter should be asked to stock chevrons, the fabric, and the pattern.

Iva Gross, New York
Florence Forbes, Iowa
Alice Corlin, Vermont.

This report was unanimously accepted by the State club leaders in attendance at the 1946 National 4-H Club Camp, after the uniform had been approved by the 4-H Club delegates in attendance.
